Summary

Highly motivated technical student pursuing dual programs in **Data Science** and **Robotics**. Proven ability to build full-stack web applications and develop automation tools involving web scraping and PDF processing. Seeking entry-level roles or internships in Software Engineering or Data Analysis where I can apply my experience in Python, Flask, and IoT systems.

Education

Indian Institute of Technology (IIT) Madras

B.S. in Data Science and Applications (Online Mode)

Diploma Level

Government Engineering College Arwal

B.Tech in Robotics and Automation Engineering

Arwal, Bihar, India

Currently in 2nd Year.

Technical Projects

Placement Portal Application

Tech: Python, Flask, SQLite3, Jinja2, Bootstrap

- Developed a centralized platform for students and recruiters to manage job applications and placement drives.
- Implemented secure role-based access control and a dynamic dashboard for real-time application tracking.
- [GitHub Link](#) | [Live Link](#)

BEU Result Engine & PDF Merger

Tech: Playwright(Chromium), PyPDF2, Requests, Flask

- Engineered an automation tool to scrape university results (BEU) and batch-download student marksheet PDFs.
- Built a processing pipeline using **PyPDF2** to merge individual student records into organized documents.
- [GitHub Link](#) | [Live Link](#)

Print_the_doc (PDF Generation Web App)

Tech: Python, Flask, Flask-WeasyPrint

- Developed a live PDF generation service utilizing **Jinja2** for dynamic content templating.
- Utilized **Flask-WeasyPrint** to convert HTML/CSS into high-quality, structured PDF documents.
- [Live Link](#)

IoT Based Smart Irrigation System (SIH 2025)

Tech: ESP32, C, Google Firebase

- Designed a smart irrigation prototype using ESP32 to monitor soil moisture and automate water distribution.
- Integrated **Firebase** for real-time data logging and remote system monitoring via a web interface.
- [GitHub Link](#)

Technical Skills

- Languages:** Python, Intermediate JavaScript, C, HTML5, CSS3, SQL
- Frameworks & Tools:** Flask, Jinja2, Bootstrap, Google Firebase, SQLite3
- Libraries:** Playwright (Web Scraping), PyPDF2 (PDF Processing), Flask-WeasyPrint
- Embedded Systems:** ESP32, IoT Sensor Integration
- Concepts:** Git, GitHub, MVC Design, DSA (Beginner)

Leadership & Certifications

Student Coordinator

March 2024 - Present

Startup Cell, Government Engineering College Arwal

- Coordinate entrepreneurial workshops and ideation sessions to promote innovation across the campus.
- Manage communication between student teams and faculty advisors for smooth project execution.

Certifications

- [Intermediate JavaScript Certification \(HackerRank\)](#)
- [Basic SQL Certification \(HackerRank\)](#)
